## BIOFIBRE® HAIR CARE SET

The BIOFIBRE® HAIR CARE SET has been specially devised to optimize the result and duration of the Biofibre® Hair Implant. The products are supplied in a practical box with full instructions for use and they are available both as single products and in the complete box.

**BIOFIBRE® Hair Comfort**  
Cleansing mousse with pH neutral. Perfect for washing hair after the implant (starting from 3<sup>rd</sup> day) and then for regular cleansing of the scalp in the long term (every day or every 2 days).

**BIOFIBRE® DermaClean**  
Sanitizing spray to be used starting from the 3<sup>rd</sup> week after the implant, 3-4 times a week. It has to be sprayed on the implanted area to keep it clean and disinfected.

**BIOFIBRE® SeboCare**  
Anti-sebum lotion to be used starting from the 5<sup>th</sup> week after the implant. It has to be sprayed once a week and it is very effective to keep the scalp clean from sebum and to prevent sebum plugs.
