## BIOFIBRE® HAIR CARE SET

The BIOFIBRE® HAIR CARE SET has been specially devised to optimize the result and the duration of Biofibre® Hair Implant. Products are supplied in a practical box with full instructions for use and they are available both as single products and in a complete box.

### BIOFIBRE® Hair Comfort

Cleansing mousse with pH neutral. Perfect for washing hair after the implant (starting from 3<sup>rd</sup> day) and then for regular scalp cleansing in the long term (every day or every 2 days).

### BIOFIBRE® DermaClean

Sanitizing spray to be used starting from the 3<sup>rd</sup> week after the implant, 3-4 times a week. It should be sprayed on the implanted area to keep it clean and disinfected.

### BIOFIBRE® SeboCare

Anti-sebum lotion to be used starting from the 5<sup>th</sup> week after the implant. It should be sprayed once a week and it is very effective to keep the scalp clean from sebum by preventing sebum plugs.
